

LIDERKIT

LIDERKIT is a leader company in the national and international market producing box bodies which will be distributed in kits to be mounted. The main advantage of this product is its versatility, as well as the quick assembly and its high-quality standard. Combining these characteristics, we obtain a product very cheap, reliable, long-lasting and competitive in any market of the world. LIDERKIT is company which manufacture, design, assembly and sales bodies and trailers, isothermal, fridge bodies, sandwich panels and assembly prefabricated kit bodies and trailers, states:

QUALITY AND ENVIRONMENTAL POLICY

OUR QUALITY PRINCIPLES ARE:

1. **CUSTOMERS SATISFACTION:** this is one of the priorities for LIDERKIT, for knowing how to improve our products and service, to make our customers to continue rely on us.
2. **PROFITABILITY:** As the only way to continue innovating to get a constant growth.
3. **MONITORING, CONTROL AND IMPROVEMENT:** activities and processes according to risk analysis, targets and indicators in compliance with the context of our company, getting measurable information that contributes to implement actions to improve our products, services, and management processes.
4. **HUMAN AND PROFESSIONAL VALUE:** the fundamental origin of LIDERKIT strength are their employees. For this reason, we facilitate the motivation, competence and pride in their contribution to the work done. QUALITY is a common task for everyone, each employee is responsible for the quality of their work.
5. **COLLABORATING WITH STAKEHOLDERS:** (Understanding stakeholders as employees, suppliers ...) By creating relations based in trust, loyalty transparency, mutual respect and reciprocal contribution, encourage their implication in our processes and products quality.
6. **CONTINUOUS INVESTMENT:** we try to obtain the most modern and advance machinery, for a best productivity in our work.

OUR ENVIRONMENTAL PRINCIPLES ARE:

1. **PREVENT POLLUTION AND THE PROTECTION OF THE ENVIRONMENT:** Adopt all the necessary measures for its prevention, and, when this cannot be possible, reduce to minimum the pollution emissions.
2. **REDUCE THE WASTES:** Recycling and reusing them whenever possible, and efficiently use the natural resources, raw materials and energy on the basis of a perspective of life cycle of our products.
3. **EDUCATE AND MAKE THE EMPLOYEES AWARE:** About the environmental aspects that can be generated, making them part of our politics in every activity. We motivated them to make their behavior in the workplace reflect this environmental education.

Associated with the two fundamental principles of Quality and Environment, we count as a priority:

LEGAL, CONTRACTUAL OR OTHER COMPLIANCE: Adopt all the necessary measures to guaranty the compliance of all the environmental regulations to all our activities in Europe, and in our country, and the specific requirements of our clients.

Our integrated policy includes a commitment to comply with requirements and continually improve the effectiveness of Quality an Environmental Management System, as well as to comply with the international requirements of the **UNE-EN-ISO 9001:2015**, **UNE-EN-ISO 14001:2015**, Regulation **858/2018** and **CEPE/ONU N° 58**.

It gives a reference frame for establishing and reviewing quality objectives and environmental goals. The policy is appropriate to **LIDERKIT** purpose and nature, scale and environmental impacts of our activities and services.

This way, the directors of **LIDERKIT** declare that the application of these Quality an Environmental Management System is mandatory, and that it has been correctly established, implanted and it will be maintained updated in all the organization levels.
